## The ÖH Klagenfurt/Celovec is more than your legal representative body

Acting as your companion throughout your study life we are working to make your time at the university Klagenfurt/Celovec as pleasant as possible.

Predominantly students like yourself dedicate themselves for your interests. We advise you, we bring life to the campus and we get active for better study conditions and fair curricula. Furthermore, we represent your concerns towards economy, politics and public. We could already realize numerous projects for your use, such as the ÖH MenüCards for various restaurants at the campus, legal and social consultations, the 24h library and 24h lending, group study rooms, a community garden, Open Space and many more.

Next to our services, consultations and events many of us work behind the scenes in committees and bodies of the university. This starts with the senate, one of the highest bodies in the university, and continues with many other committees (curricula, appeals, etc.) and working groups that affect your study life directly or indirectly.
